

AvaxStaker.finance — Earn upto 20% Daily on your Staked AVAX Token

We are the first fork of Maticstaker on Avalanche, a High Yield Investment programme developed for the avalanche community. Maticstaker has been successful in the past month, and the high returns are still continuing, but because of its increasing capital volume and higher APR, it is more and more difficult.

Our team members are from the maticstaker community. We think AvaxStaker is a fork that just better.

Key improvement

- We reserve 2% of the capital pool to form LP with SWTC. Half of SWTC will be used for airdrops to 28-day lock-up plan participants, and the other half will be used to reward the last investor. That will make our project last longer.
- We have increased the APR of the 21-day plan and the 28-day plan to encourage long-term investment.
- We reduced the APR daily growth rate, that will also make our project last longer.
- We have increased the invitation reward, which will bring more new users to the project.

This onchain investment programme is very secure, the contract has been studied and verified to be 100% safe, audited by HAZE CRYPTO, there is no method in the contract to withdraw the funds in the pool, so please rest assured that even the developers are not able to RUG. With the features included, the contract will be able to sustain itself for a very long time.

This is the best time to put your AVAX into yield returns and gain good ROI. This is a community driven project. We encourage every member of the community to re-invest a small percentage of their gains so as to sustain the life-span of the contract.

Contract starts on the 6th of March, 2022

FEATURES -

- There is a 10% withdrawal fee which is re-invested into the contract to sustain it
- Basic interest rate (only for new deposits): +0.3% every 24 hours
- Total income (based on your tariff plan): from 7% to 8% daily + Basic interest rate (grows daily)
- Minimal deposit: 0.05 AVAX and no maximal limit
- 12% is imposed on every investment and 2% will form LP with SWTC
- Earnings every moment, withdraw any time, if you use capitalization of interest you can withdraw only after end of your deposit Investment Plans. We have 2 types of tariff plans with different periods and percentages of profitability

Plan Type №1 (unlocked plans) — Withdraw profit any time

- SAVINGS — (14 days) — 8% per day — 112% profit in total
- CLASSIC — (21 days) — 7.5% per day — 157% profit in total
- PREMIUM — (28 days) — 7% per day — 196% profit in total

#1 The initial reward percent increases every day by 0.3% For example: on SAVINGS plan on day 20 of the project, the reward percent will already be equal to 14% per day ($20 * 0.3 + 8$)

#2 The reward percent is fixed at the start of the plan. For example: on the 12th day of your plan, the reward percentage will remain the same till the end of that investment.

Plan Type №2 (locked plans) — Withdraw profit end of plan + use capitalization of interest

- SILVER — (14 days) — 8% per day — 197% profit in total
- GOLD — (21 days) — 7.5% per day — 365% profit in total
- PLATINUM — (28 days) — 7% per day — 582% profit in total

#1 The reward percent increases every day by 0.3%

#2 This plan type use capitalization of interest (daily compounding) to calculate the percentage of profit. example: in day one you get, + 8% for the amount of 1 AVAX = 1.08 AVAX. On the second day, you will already receive 8.3% on the amount from the previous day $1.08 * 8.3\% = 0.08964$ AVAX. The next day, 8.6% on the amount of the day passed, and so on.

You can use the inbuilt reward calculator to see upfront your expected ROI by inputing your amount of investment in the specific plan box.

Referral System Get additional income by inviting people to follow your link You will receive:

- 6% from each level 1 referral deposits

- 3% from each level 2 referral deposits
- 1% from each level 3 referral deposits

Explanations:

#1 You need to have at least 1 deposit to start receive earnings

#2 You need to use your referral link to record the people you refer

#3 Your reward is credited to a separate place in the smart contract and can be withdrawn at any time by pressing the «WITHDRAW» button.

- Contract Address:
0x1B247aed90Bd422f096930c837C995de3f8762A2
- Audit Report — [HazeCrypto — Audit | AvaxStaker](#)

- Project deployed on **Avalanche Network**, fast and secured network and very low transactions fees.
- The code was tested with compatible compilers and simulate manually reviewed for all commonly known and specific vulnerabilities.

SWTC TOKEN UPCOMING AIRDROP

AvaxStaker is designed to have a token to power it's defi high yield programme and keep the project continues. 50% of the initial token supply will be distributed to users of the platform who have staked their AVAX token in the 28-day locked plans.

Token will be Airdropped on the first of May 2022. More information will be released on tokenomics and platform dex function.

***SWTC tokenomics is designed for long time investment.
We will be releasing tokenomics and road map before
Airdrop.***
